

VOLUNTEER PARTICIPATION

The Board of Education encourages the use of community resources and involvement of citizens to assist in furthering the educational program of the school system. Volunteer participation, by individuals and groups, may occur within the schools and in supervised off-site activities before, during, and after school hours.

The district will work to provide a safe learning environment for students working with volunteers.

Utilization of volunteer services in each school is encouraged as a means of involving the community in the educational program. The appropriate use of volunteers and outside resources will be approved by the Superintendent or his/her designee. The district volunteer form needs to be completed and background checks may be run.

Volunteers shall abide by applicable laws and regulations as well as district policies, rules, and procedures while they are serving as volunteers for the district.
