

0-5 PERCENT

0-5% positivity in Polk County on average over the past 14 days.

- > Students learn at school or online based on what families chose BEFORE Sept. 4.
- > Daily wellness checks by staff and students who learn on-site.
- > Face coverings required. Social distancing followed when possible.
- > Practice frequent hand washing and other safety measures.
- > Continued consultation with local health officials.

AT SCHOOL

AT HOME.

6-9 PERCENT

6-9% positivity in Polk County on average over the past 14 days.

Students learn at school or online based on what families chose BEFORE Sept. 4

UNLESS

the positivity percentage in Polk County over a 14-day period has fallen BELOW 6% and then rises ABOVE 6%.

THEN

WDMCS will email parents to let them CHOOSE if they wish students to remain AT SCHOOL or move ONLINE for rest of the semester.

View more details online.

REMAIN AT SCHOOL.

OR

MOVE TO ONLINE.

10+ PERCENT

10%+ positivity in Polk County on average over the past 14 days.

WDMCS considers whether or not to temporarily move online a classroom, school, or the entire district.

THINGS TO CONSIDER

- > Positivity percentage in classroom, school, or district.
- > Types and number of student absences.
- > Availability of staff within a classroom, building, or school.

WDMCS will call a Board meeting to provide recommendation to the Board for review.

REMAIN AT SCHOOL.

OR

TEMPORARILY MOVE ONLINE.
